Welcome to the new issue of LEGO® Club Junior Magazine! It's May, but we're already getting ready for summer here. I'm trying to decide where to go on vacation: LEGO City, Mixopolis, Heartlake City, or Gotham City™? Maybe this issue will help me decide. So put on your sunglasses and your sunhat and get ready for summer fun!

MAX'S ADVENTURES!

Now it's very important when you pack for vacation that you take only what you need. This bag has all my clothes.

And this is my camping gear, beach balls, sunglasses and other fun stuff.

Um, and what's in this one?

RACE ON THE WATER!

It's a great day for a camping trip in LEGO® City! But getting to this sandy island retreat by ferry might be just as exciting ...

I'm so excited to go camping!

Me too. The ferry will take us right to our campsite on the island.

Hey, watch where you're going!

Hey, how fast do you think that big thing goes anyway?

What? Why would - ?

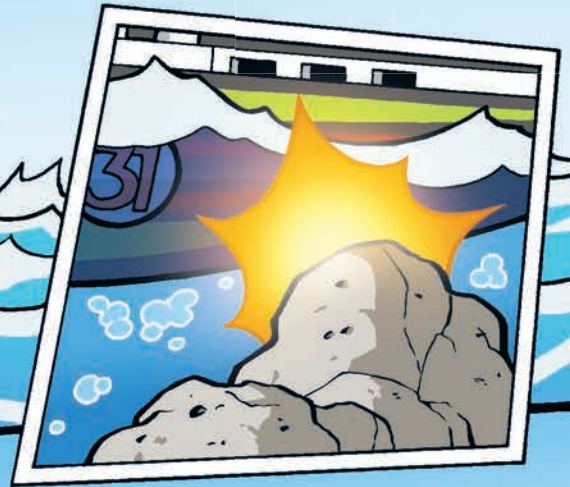

Ack!

Keep up ... if you can!

Wow. For a little boat, it sure can make waves.

Yeah, my stomach is making some waves too.

Ha! No way they'll catch up!

Whoa!

Uh, little help!

Kid, you've got some things to learn about being safe on the water.

I think I'm about to learn something about my lunch.

POP!

How about a race across the bottom of the ocean? Or from one side of the moon to the other? What kind of car would you need for races like those? Ask your child to draw or paint what they think their rally car would look like.

FAMILY FUN

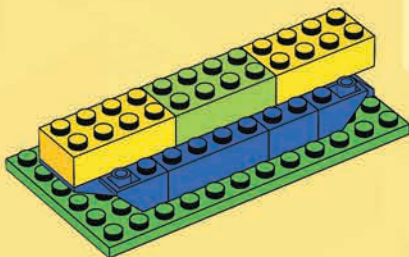

There are a lot of different vehicles that sail on the seas (or underneath them), from luxury liners to fishing boats to submarines. Talk to your child about what kind of vessel they would take to sea, and what they might see and do there. What kinds of things might they spot when they explore? What would they need to be on the lookout for, like storms or fog?

Have you ever wished you could get on a boat and sail the seven seas? Here's a boat you can build using pieces from LEGO® Classic brick boxes or pieces from your own LEGO collection. Don't worry about matching the colors. Use whatever color bricks you want!
